Director of Career and Technical Education

**ACTION REQUESTED BY THE SUPERINTENDENT:** That the School Board approve the Local Plan for Career and Technical Education for 2004-2005 school year.

### **KEY POINTS:**

The Local Plan for Career and Technical Education must be approved by the School Board for Stafford County Public Schools to receive federal funds to support the local efforts in Career and Technical Education for the 2004-2005 school year.

This plan is an annual application for federal funds as provided by the Virginia Department of Education in compliance with the Carl D. Perkins Vocational and Technical Education Act, 1998 and United States Department of Education regulations. It is an on-going plan from each year that allows for expansion and improvement of Career and Technical Education programs at the local level, as required by federal regulations. Its development reflects the input of the staff, advisory committees, and the approval of the Career and Technical Advisory Council, appointed by the School Board. The Advisory Council approved this plan at a regular scheduled meeting held on February 26, 2004. It may be amended should budget considerations at the state level necessitate a change in the application.

Schedule items are blank due to prior year approval and are not required to be submitted each year.

**SCHOOL BOARD GOAL:** Goal 1 - Provide educational excellence through instruction that establishes high expectations for all students yet recognizes the unique needs of each learner.
